

Chart Comparing Four Student-Centered Strategies

This chart compares the steps of different student-centered strategies.			
Writing Process	Service-Learning Strategy	Scientific Method	Visual Literacy
Brainstorming and reading	Investigate	Stating the problem, review literature, hypothesis	Predict
Organize and develop thesis	Plan	Design procedure	State what you observe
Drafting	Action	Conduct experiment/collect data	Infer
Peer review and revision	Reflection	Analyze results	Connect to social/historical context
Publication	Demonstration to outside audience	Develop conclusion and communicate results	State broader significance
