Demonstration of Understanding

Demonstrate your understanding of philanthropy and your role as a generous citizen. Ideas:

1. Write an essay about the history of civic engagement.
2. Write a poem about something in the community that breaks your heart.
3. Plan an advocacy project that uses your voice to impact something important to you.
5. Reflect on the current climate of youth participation in civil society; what you observe, expect, and hope to see.

These may be shared in the school, local news, and with decision-makers to build awareness of students as assets to the community.
