

## Get to the Root!

This tool helps you explore an issue and get started taking action. Write your central problem on the trunk of the tree. State in terms of what is wrong, not what you hope to see (e.g., pollution at a park, lonely grandparents, food insecurity, or bullying). Working collaboratively, write the roots of the problem, its effects, and the people and resources in the community that have a bird's-eye view of the problem with whom you can work.
