

Invite youth to participate in the Cultural Competence Club

The following is a sample recruitment message that can be customized and sent to families and community members:

Hello Families!

You may have heard about our Cultural Competence Club (C3). C3 is ready to take on new members starting this week!

The goal of C3 is to build our young people's ability to operate in a diverse society, by understanding cultures around the world and within the district.

Youth in C3 will learn about culture and ethnicity, disabilities (physical and cognitive), inclusion, and more.

We envision that in C3, the young people will learn and grow as individuals, but also help do projects around the community and school. For example, did you know that Sept 15 - Oct 15 is National Hispanic Heritage Month? Imagine the things our club could do to recognize this and other events!

If your child is interested in joining, please respond to this email with their name so that I can know to look for them this Wednesday.
