

Are You Involved?

With an adult, discuss how many nonprofit organizations you belong to, donate to, participate in, or with which you are involved. Fill in the graph of organizations with which you are involved. On the back of the page:

- list specific organizations in which you are involved, and be ready to share with the class how these organizations benefit the community.
- determine approximately how far, in miles, these organizations are from your home.

Miles	Religious	Public and Societal	Health and Human	Art, Culture, and	Education	Environmental	International
