

# Assessment of Service-Learning

## **Student Learning**

1. What academic learning goals were met?
2. What were some of the unforeseen outcomes?
3. What initiative or leadership skills did the students show or develop?

## **Impact of the Service**

1. What was the impact from the service-learning on the students and community?
2. What contribution was made to child hunger?
3. Describe the skills of civic engagement developed in students.

## **Community Partnerships**

1. Describe the positive and negative aspects of collaborating with a nonprofit to address the issue of child hunger.
2. What community networks or relationships formed in this experience?
3. How can community partnerships be improved or strengthened?

## **Service-Learning Process**

1. How did this service-learning process differ from other teaching and learning experiences?
2. Describe the level of student ownership and engagement.
3. In future service-learning experiences, how will you alter the planning process?
