Decision-Making Model

| Choices                                         | What’s Important to Us? (Criteria) |
|                                                | We have the skills to do it. | It has an affordable cost. | There is a need for this. | Most of our group likes the idea. |

Decision-Making Model Steps

1. Select project choices from your list and write them on the chart.
2. Determine criteria for a feasible project. (You may change the criteria given.)
3. Rate from 5-1, with five as most in agreement with the criteria.
4. Evaluate.
5. Make a decision based on the tallied ratings.
