

Family Letter/Interview Questions

Dear Families,

In a few days we will be visiting a local retirement/nursing home and your child will have the opportunity to get acquainted with an elderly resident. During this visit, the students will interview a resident, trying to get to know more about that person and his or her contributions to the community and society.

In the space below, please help your child to write down 6-8 interesting and thought-provoking questions concerning the life of this elderly person. We will be brainstorming together at school tomorrow and compiling a class list of questions for the students to take with them during the visit.

Have your child bring this page back to school tomorrow.

Thank you,

Your child's teacher
