

# Help Save These Animals!

Name: \_\_\_\_\_ Date: \_\_\_\_\_

A. Read about the endangered species that has been assigned to you.

B. Answer the following questions.

1. What species are you researching?

---

---

2. What does this species look like?

---

---

3. In what part of the world does this species live? (Be as specific as you can!)

---

---

4. Describe the environment where this species lives. (Is it a desert? Is it a forest? Is it hot? Is it rainy?)

---

---

5. What does this species eat?

---

---

6. How many of this species are left in the world?

---

---

7. How did this species become endangered?

---

---

8. What can we do to help this species?

---

---

9. Write two facts about this species that make it unique.

---

---

---

---

C. When you are FINISHED with the QUESTIONS, create a fact sheet that lists all of the information that you have learned about your animal. Be sure to include all of the information that you used to answer these questions. You should have at least 10 facts. Write the name of the species at the top of the page and then make a NUMBERED list of facts with each fact starting on a new line.

D. Think of a slogan, or catchy phrase, that describes the species uniqueness. Your slogan should include the name of your animal, make it clear that this animal is an endangered species, and explain why it is important to help this type of animal. Using construction paper and markers, create an advertisement, like one you might find in a magazine, to share with the class. Include your slogan in your advertisement.
