

Homework

Dear Family,

I have been learning about the Native American traditional belief of the environment through reading historical and contemporary works about "Mother Earth." Today we started several experiments to discover the effects of pollution on our environment and we read some environmental facts. Please help me answer these questions.

Thank you,

(Student Signature)

Do you think it is important to take care of the environment? YES NO

Who should be responsible for taking care of the environment?

What does our family do as good stewards of the environment?

What does our community do?

What are some ideas for additional actions our family or our community could take to care for our environment?
