

Hunger Quiz

True (T) or False (F)?

1. At least 700 million people around the world do not have enough to eat. _____
2. There isn't enough food in the world to feed everyone. _____
3. When countries experience famine, nature is to blame. _____
4. Every year, hunger kills 12 million children worldwide. _____
5. There are too many people on Earth for the food supply. _____
6. If we stopped making rules about organic farming, we could use pesticides to mass-produce enough food to end hunger. _____
7. Hunger isn't much of a problem in the United States. _____
8. The government makes too many rules about food. If they would allow people to buy and sell food without so many rules and regulations, there would be less hunger. _____
9. While the U.S. accounts for only 6 percent of the world's population, it uses 40 percent of the world's resources, which includes food. _____
10. People suffering from hunger do not stand up for themselves and fight for their rights. _____
