

"I" on Philanthropy Presentation Explanation and Rubric

For the next two days we will be working on a three-minute presentation that will reflect upon your experiences learning about the non-profit and philanthropic organizations in our community. In this project, you will take a quote from the interview that you completed and think about what this quote says about how identity is affected by doing philanthropic work.

You will be presenting this through some creative means. This could include song, dance, rap, poem, a drawing and explanation, or a skit. You will have today's class period to complete it and we will be presenting for the class tomorrow. Whatever you do not complete today in class will be homework tonight.

Objective	Possible Points	Your Points	Comments
Student uses a quote from the interview	10		
Presentation thoughtfully utilizes some creative means (song, dance, rap, visual representation, skit)	15		

Well-developed reflection regarding the connection between philanthropy and identity	35
--	----

Focus and practice are evident	20
--------------------------------	----

Overall Effect and Quality	20
----------------------------	----

TOTAL POINTS	100
