

# My Hands Are Not Tied

You and your design team are to gather ideas for making an effort to preserve the World's Rainforests. Using lined paper, number it from 1 to 12 down the left column. You and each of your team members sign their name next to one of the numbers and put a check next to the corresponding website on this sheet. Research that site and record any potential ideas for taking action. Include the ideas that are presented even if you are not sure they are doable. Once you have completed the research with your first website, write your name next to another site that has not been taken. Continue through this until all twelve sites have been accessed. If you finish before the others and all sites have been assigned, continue to research by doing the Internet search: "How Can I Save The Rainforest?"
