

## Nature Scavenger Hunt

Go for a walk and look for the following things in nature. In urban areas, the spaces may be small and hard to find between concrete structures and in urban parks.

Check each item as you find it.

- Textured bark on a tree
- Smooth bark on a tree
- Tall grass
- Plant that grows without dirt in sight
- Tiny flowers
- Plant in the shade
- Black dirt
- Small pebbles
- Velvety plants or moss
- Brightly colored leaves or flowers
- Gray or black
- Small mammal
- Bird
- Insect/spider

Take photos of different colors and textures in nature.

Use as many senses as possible to enjoy the natural world. Be prepared to write a sentence describing a way you used each sense.
