

# Rubric for Oral Presentation or Proposal

Practice your presentation before presenting to the planning commission.

Make sure all of the following elements are ready.

1. All members of the group have a role and are ready.
2. The presentation stays within the 15-minute parameter.
3. Introduction includes appreciation for the opportunity, name of the corporation, and an overview.
4. Description of the current use of impervious surfaces with supporting evidence and documentation.
5. Description of negative environmental impact of impervious surfaces with supporting evidence and documentation.
6. Proposal to reduce the current use of impervious surfaces in a convincing/persuasive manner.
7. Uses visuals (e.g., presentation software, digital images, models, demonstration, or project board).
8. Conclusion includes summary and memorable question/statement.
